

American Health Care Act: Myth vs. Fact

MYTH #1: People believe millions of Americans will lose their health care.

FACT: *False, Americans can choose to keep their existing health care options.*

MYTH #2: People believe that Medicare and Social Security will be negatively affected.

FACT: *False, the American Health Care Act does not touch Medicare or Social Security.*

MYTH #3: People believe Medicaid will be gutted causing millions of Americans to lose health care.

FACT: *False, to begin, States will receive \$115 billion dollars to help meet the healthcare needs of low income Americans.*

MYTH #4: People believe those with pre-existing conditions will lose their health care or be forced to pay more.

FACT: *False, people with pre-existing conditions will be protected from being denied coverage or charged more for health insurance.*

MYTH #5: People believe they cannot keep their children on their plan until they are 26.

FACT: *False, children can remain on their parents plan until they are 26 years old.*

MYTH# 6: People believe they will receive no assistance to afford their healthcare.

FACT: *False, Americans who do not receive health insurance thorough their employer or other government program will be given a monthly tax credit to purchase health insurance.*
